BUY WITH CONFIDENCE

In this list we offer one of the most complete assortments of trees and plants to be found in any Nursery in Ohio. We grow our own stock under the same climatic condition and in soil similar to yours. The quality is fine and the plants are well grown, freshly dug and carefully handled. All stock is always carefully dug to preserve all the roots so you know it can grow well for you.

Buy by mail or at our large sales ground. We shall be delighted to serve you well.

Pickett & Son

CONDITIONS OF SALE

Prices quoted herein are for plants of average size and quality and do not apply to materials specially selected in the fields. Such material will be charged for according to quality and service desired.

Non-Warranty. We are very careful to keep our varieties true to name, and we hold ourselves in readiness on proper proof, to replace free of charge any stock that may prove untrue to label, or we will refund the purchase price. We are liable at no time for more than the original price paid.

Prices subject to change without notice.

MAIL ORDERS

You are invited to visit the Nursery and select plants of your own choosing, but if you cannot drive to Clyde, you can always be sure your order by mail will receive careful attention.

Send your order by mail and prompt shipment will be made. Please include the 3% Ohio Sales Tax. Mail to The Clyde Nursery, Pickett & Son, Clyde, Ohio.

Remit by check, bank draft, or money order. We do not ship C.O.D.

Orders for small plants can be sent by mail. Such items as Evergreens and Trees are too large for mail shipments and they are sent express or freight.

How to Figure Postage: Orders up to \$2.50 add 40c for packing and postage. Orders from \$2.50 to \$5.00 add 60c postage. Larger orders will be sent by express or freight with transportation charges collect.

PICKETT'S OHIO GROWN FRUIT TREES

For more than eighty years we have given special attention to Fruit Trees, growing them with utmost care and skill in our own large Nurseries. Pickett's trees are good trees and are sold at reasonable prices. We propagate our Fruits under careful conditions, selecting buds from bearing trees of outstanding merits. This is your assurance that our trees are pure and of the best strains.

Well cared for in the Nursery, the trees are thrifty and well-rooted. We dig them carefully, running the digger very deep so that you get all the feeding and fibrous roots and you know the trees can grow.

The farmer and gardener who has bearing Fruit Trees makes money. Plant some trees this year and every year.

The laws of nature make trees bear better in groups, so plant more than one variety of each fruit so they may cross pollinate.

Number of Trees or Plants for an acre of Ground

Set at Regular Distance Apart

Feet		Feet	
1 by 1.....	43560	5 by 5.....	1742
2 by 1.....	21780	6 by 6.....	1210
2 by 2.....	10890	8 by 8.....	680
3 by 1.....	14520	10 by 10.....	435
3 by 3.....	4840	16 by 16.....	170
4 by 1.....	10890	20 by 20.....	109
4 by 2.....	5445	25 by 25.....	70
4 by 4.....	2725	30 by 30.....	48
5 by 1.....	8712	35 by 35.....	35
5 by 3.....	2904	40 by 40.....	27
5 by 4.....	2187	50 by 50.....	18

Rule: Multiply the distance in feet between the rows by the distance the plants are apart in the rows and the product will be the number of square feet for each plant or hill; which divided into the number of feet in an acre (43560) will give the number of trees to an acre.

APPLE

Our trees grow rapidly, bear young and produce heavily. A careful selection of varieties will give you superior fruit all summer, fall and winter.

ORNAMENTAL AND SHADE TREES

The size of all trees is given by height except where the word caliper is inserted before the size. The caliper of a tree is the thickness of the trunk just above the ground line. Our Shade and Flowering trees are splendid in both "top and root" growth, having been transplanted frequently and given ample space in which to develop.

Chas. Joly—Double dark red and large blooms are held erect on the upright growing bush. In our opinion this is one of the best dark red lilacs.

Ellen Wilmott—Double creamy white in large long panicles. Strong grower, free blooming. One of the finest white lilacs we know.

Katherine Havemeyer—Double pink lavender. Thrifty bushes bear large clusters persistently. An outstanding pink.

Leon Gambetta—Double pinkish lavender florets are dainty and roselike. Panicles are huge and these characteristics maintain a popularity that is well-deserved.

Madame Lemoine—Snow white and double, one of the best older varieties. Shapely bush with dark green foliage. Sweetly scented and blooms freely.

Marechal Lannes—Double violet. Shapely panicles are composed of extremely large florets.

Pres. Carnot—Double lavender. Exquisite panicles are borne very freely.

Pres. Grevy—Double, a clear soft blue with immense panicles. A long-time favorite and still very popular.

Waldeck Rousseau—Double mauve-pink.
